Successful BUSINESS EVENT

NANBA TEAM AT MILIPOL PARIS 2015

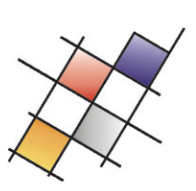

As we sum-up Milipol 2015 Paris event in a nut shell only one word fits well to delineate "AWESOME BUSINESS PLATFORM" where not only old contacts had further been matured but also many new opportunities and acquaintances being established particularly in European region.

Apart from NANBA team the strong contribution of Mr. Gunter De Leat and Mr. Achiel De Leat serving high officials as well as other clientele in French, German, Dutch and of-course some other widely spoken languages in Europe not only stand up NANBA amongst other competitors in the exhibition rather proven the fact that our recent Joint Venture in Belgium was a right decision between both companies giving one name DLTechNANBA to serve big fish in the sea especially in Europe.

Along with Uniforms, Accessories & Attirements Milipol 2015 also gave a good outlook to our newly added product line Tactical Uniforms, Gloves, Protection Gears and Accessories.

Thank you very much for all our old and new clients for their business with us and we assure them our best co-operation and assistance throughout in coming years.
